he trained in electronics on a much larger scale. Gary was discharged in 1962.

After his discharge from service, Gary worked for Halvorson Electric (now Mireault's Home Furnishings), repairing TV's and appliances. Gary's career had literally taken him all over the world for Control Data, Network Systems, Dara 100 and Learning Tree International where he was an instructor.

One of Gary's more memorable career moments was in 1967 when he was working with NASA Mission Control in Houston for the Apollo capsule testing when a flash fire swept through the spacecraft killing the three astronauts. The mission was in preparation for the first flight of Apollo. A memory permanently engrained in his mind forever.

Since his discharge, Gary had belonged to several American Legion Posts. He is currently a member of the American Legion Irvin Blix Post 16. He is very active in the Legion, now on his

third term on the Executive Board. Additionally, Gary has belonged to a police band, swing band and college band. He continues his love for music playing the trombone in the 9th District Legion Band, where he has gone to district, state and national conventions.

Gary is one of three generations who have served our country; his father served in the Army during WWII, and his son, David, served in the Army at the DMZ in Korea.

John Gustafson

Navy Veteran John Gustafson was the second honorary selected to receive a Quilt of Valor. After graduating from high school in Wadena, MN in 1956, John chose to enlist in the US Navy as opposed to be drafted, thus having more control over his destiny.

John took his basic training at the Great Lakes Naval Station near Chicago. Other training and duty stations included Newport, RI; Norman, OK;

and Jacksonville, FL. He was

trained as office personnel. In June of 1959, in Mayport Florida, he boarded the USS Essex Ship, as part of the Sixth Fleet.

The Essex Odyssey crossed the Atlantic Ocean and sailed the Mediterranean Sea, making many port stops during the next six and a half months. This was part of President Eisenhower's "People-to-People" program to enhance international understanding and friendship through educational, cultural and humanitarian activities. The president visited the ship when John was aboard. Yeoman 2nd Class Gustafson served in the gunnery department on

board. John also became the boss of a band that played 76 performances in many of the port cities entertaining and engaging with locals. These events were very popular, drawing in 500 to 600 people eager to learn about American music and culture. In turn, the band would get to tour the cities, learn their customs and foods, etc.

Music was not John's only passion.

In high school, John was an athlete and played basketball. He was chosen to be a part of a basketball team on the ship that played 25 games against local teams in various ports. John proudly says they won them all.

Due to the friendship between the Captain of the Essex and the US President, John's time on the ship, along with nearly 5000 other men, allowed for experiences unlike anything the average person in the Navy would ever have. They most likely saw more of Europe than even someone stationed in Europe.

The Essex returned to the United States in 1960. John was discharged to inactive reserves, then later to active reserves, and receiving his final discharge in September of 1964.

John attended Moorhead State College, graduating with a degree in Speech Therapy and

Theater, with a concentration in Business. John worked with various companies such as Sears, Our Own Hardware in Minneapolis, Chicago and Denver, along with various other places as a manufacturing representative.

John moved to Bagley in 2002. He is a member of the American Legion Irvin Blix Post 16. John loves to golf and watch it on TV.

Congratulations to both Gary and John on receiving their Quilts of Valor. They are well deserved for their service to this great country.
